INDEPENDENT AUDITOR'S REPORT

Members of the Board of Education
Nasha Shkola Charter School No. 4208
Brooklyn Park, Minnesota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of Nasha Shkola Charter School No. 4208 (the Charter School), Brooklyn Park, Minnesota as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Charter School's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Charter School's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Charter School's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Charter School as of June 30, 2019, and the respective changes in financial position and the respective budgetary comparison for the General fund and Food Service fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis starting on page 15, the Schedules of Employer's Shares of the Net Pension Liability and the Schedules of Employer's Contributions starting on page 56 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

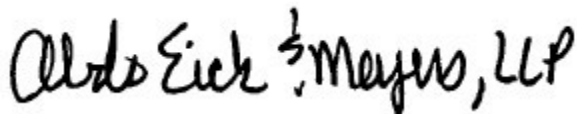

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Charter School's basic financial statements. The introductory section and individual fund schedule and table are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The individual fund schedule and table are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 9, 2019, on our consideration of the Charter School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Charter School's internal control over financial reporting and compliance.

Management's Discussion and Analysis

As management of the Nasha Shkola Charter School No. 4208 (the Charter School), Brooklyn Park, Minnesota, we offer readers of the Charter School's financial statements this narrative overview and analysis of the financial activities of the Charter School for the fiscal year ended June 30, 2019.

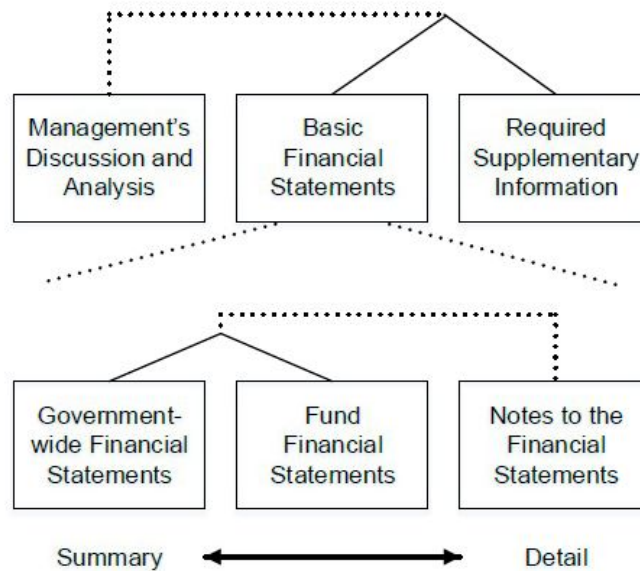

Financial Highlights

- The liabilities and deferred inflows of resources of the Charter School exceeded assets and deferred outflows of resources at the close of the most recent fiscal year by \$892,669.
- A deficit of \$897,585 (unrestricted net position) exists mainly due to the outstanding long-term pension liability related to the TRA and PERA defined contribution benefit plans.
- The Charter School's total net position increased \$155,100, mainly due to a change in PERA and TRA pension assumptions leading to a negative pension expense.
- As of the close of the current fiscal year, the Charter School's governmental funds reported a total ending fund balance of negative \$3,500, a decrease of \$48,960 in comparison with the prior year ending fund balance of \$45,460.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the Charter School's basic financial statements. The Charter School's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplemental information in addition to the basic financial statements themselves. The following chart shows how the various parts of this annual report are arranged and related to one another:

Required Components of the Charter School's Annual Financial Report

The following chart summarizes the major features of the Charter School's financial statements, including the portion of the Charter School's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements:

Major Features of the Government-wide and Fund Financial Statements

	Government-wide Statements	Fund Financial Statements Governmental Funds
Scope	Entire Charter School (except fiduciary funds)	The activities of the Charter School that are not fiduciary, such as special education and building maintenance
Required financial statements	<ul style="list-style-type: none"> Statement of Net Position Statement of Activities 	<ul style="list-style-type: none"> Balance Sheet Statement of Revenues, Expenditures, and Changes in Fund Balances
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial focus
Type of asset/liability information	All assets and liabilities, both financial and capital, short-term and long-term	Generally assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included
Type of deferred outflows/inflows of resources information	All deferred outflows/inflows of resources, regardless of when cash is received or paid	Only deferred outflows of resources expected to be used up and deferred inflows of resources that come due during the year or soon thereafter; no capital assets included
Type of inflow/out flow information	All revenues and expenditures during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable

Government-wide Financial Statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the Charter School's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the Charter School's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Charter School is improving or deteriorating.

The *statement of activities* presents information showing how the Charter School's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., pension benefits).

The government-wide financial statements display functions of the Charter School that are principally supported by taxes and intergovernmental revenues (*governmental activities*). The governmental activities of the Charter School include administration, district support services, elementary and secondary regular instruction, special education instruction, instructional support services, pupil support services, sites and buildings, fiscal and other fixed cost programs, and interest on long-term debt.

The government-wide financial statements start on page 24 of this report.

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Charter School, like other state and local government, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the Charter School's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Charter School maintains two individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General fund and the Food Service special revenue fund.

The Charter School adopts an annual appropriated budget for its General and the Food Service special revenue fund. A budgetary comparison statement has been provided for these funds to demonstrate compliance with their respective budgets.

The basic governmental fund financial statements start on page 28 of this report.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements start on page 35 of this report.

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Charter School's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found starting on page 56 of this report.

Other Information. The individual fund financial schedule that starts on page 62 presents budget and prior year comparative data for the General fund.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Charter School, liabilities and deferred inflows of resources exceeded assets and deferred outflows of resources by \$892,669 at the close of the most recent fiscal year.

A portion of the Charter School's net position (\$4,916) reflects its investment in capital assets (e.g. machinery and equipment). The Charter School uses these capital assets to provide services to students; consequently, these assets are *not* available for future spending.

Nasha Shkola Charter School No. 4208's Net Position

	2019	2018	Increase (Decrease)
Assets			
Current and other assets	\$ 144,688	\$ 263,804	\$ (119,116)
Capital assets	4,916	9,424	(4,508)
Total Assets	<u>149,604</u>	<u>273,228</u>	<u>(123,624)</u>
Deferred Outflows of Resources			
Deferred pension resources	<u>830,996</u>	<u>1,227,022</u>	<u>(396,026)</u>
Liabilities			
Current and other liabilities	148,188	218,344	(70,156)
Noncurrent liabilities	617,296	1,967,876	(1,350,580)
Total Liabilities	<u>765,484</u>	<u>2,186,220</u>	<u>(1,420,736)</u>
Deferred Inflows of Resources			
Deferred pension resources	<u>1,107,785</u>	<u>361,799</u>	<u>745,986</u>
Net Position			
Investment in capital assets	4,916	9,424	(4,508)
Restricted for food service	-	619	(619)
Unrestricted	<u>(897,585)</u>	<u>(1,057,812)</u>	<u>160,227</u>
Total Net Position	<u>\$ (892,669)</u>	<u>\$ (1,047,769)</u>	<u>\$ 155,100</u>

At the end of the current fiscal year, the Charter School is able to report a positive balance in investment in capital assets but unrestricted net position was negative due to the outstanding long-term pension liability related to the TRA and PERA defined contribution benefit plans.

The Charter School's net position increased \$155,100 during the current fiscal year. The following table summarizes the changes in net position.

Nasha Shkola Charter School No. 4208's Changes in Net Position

	<u>2019</u>	<u>2018</u>	<u>Increase (Decrease)</u>
Revenues			
Program revenues			
Charges for services	\$ 3,673	\$ 4,822	\$ (1,149)
Operating grants and contributions	374,564	335,153	39,411
General revenues			
State aid-formula grants	1,024,387	1,039,078	(14,691)
Other general revenues	68,241	31,878	36,363
Unrestricted investment earnings	41	-	41
Total Revenues	<u>1,470,906</u>	<u>1,410,931</u>	<u>59,975</u>
Expenses			
Administration	86,347	112,138	(25,791)
District support services	88,833	92,251	(3,418)
Elementary and secondary regular instruction	501,090	869,543	(368,453)
Special education instruction	117,268	122,950	(5,682)
Instructional support services	28,856	24,561	4,295
Pupil support services	185,153	190,838	(5,685)
Sites and buildings	249,535	221,131	28,404
Fiscal and other fixed cost programs	10,381	9,651	730
Food service	46,026	54,419	(8,393)
Community service	-	1,175	(1,175)
Interest on long-term debt	2,317	2,695	(378)
Total Expenses	<u>1,315,806</u>	<u>1,701,352</u>	<u>(385,546)</u>
Change in Net Position	155,100	(290,421)	445,521
Net Position, July 1	<u>(1,047,769)</u>	<u>(757,348)</u>	<u>(290,421)</u>
Net Position, June 30	<u>\$ (892,669)</u>	<u>\$ (1,047,769)</u>	<u>\$ 155,100</u>

- Total revenue increased a total of \$59,975 mainly due to an increase in operating grants and contributions and other general revenues.
- Total expense decreased by \$385,546, notably due to a decrease in elementary and secondary regular instruction which decrease \$368,453.

Expenses and Program Revenues

Financial Analysis of the Government's Funds

As noted earlier, the Charter School uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the Charter School's *governmental funds* is to provide information on near-term inflows, outflows and balances of *spendable* resources. Such information is useful in assessing the Charter School's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Charter School's General fund reported an ending fund balance of negative \$3,500, a decrease of \$48,341 in comparison with the prior year.

As of the end of the current fiscal year, the Charter School's Food Service special revenue reported an ending fund balance of \$0. This was due to a transfer made from the General Fund to cover the excess of expenditures over revenues in the fund, the transfer was for \$1,154.

General Fund Budgetary Highlights

The Charter School's original General fund budget called for an increase in fund balance of \$16,427, and the revised budget called for a decrease in fund balance of \$38,237. Actual fund balance decreased \$48,341. Revenues were \$1,126 more than budget. Expenditures were \$10,076 more than budget. The largest negative budget variance was with instructional support services which was \$7,681 over budget.

Capital Assets. The Charter School's investment in capital assets for its governmental activities as of June 30, 2019, amounts to \$4,916 (net of accumulated depreciation). This investment in capital assets includes computer equipment. The total depreciation for the year was \$4,508. The following is a schedule of capital assets as of June 30, 2019.

Nasha Shkola Charter School No. 4208's Capital Assets (Net of Depreciation)

	2019	2018	Increase (Decrease)
Equipment	\$ 4,916	\$ 9,424	\$ (4,508)

Additional information on the Charter School's capital assets can be found in Note 3B on page 42 of this report.

Noncurrent Liabilities. At the end of the current fiscal year, the Charter School had the following noncurrent liabilities outstanding.

Nasha Shkola Charter School No. 4208's Noncurrent Liabilities

	<u>2019</u>	<u>2018</u>	<u>Increase (Decrease)</u>
Loans Payable	<u>\$ 2,858</u>	<u>\$ 14,858</u>	<u>\$ (12,000)</u>

The Charter's total long-term debt decreased by \$12,000. The primary reason for the decrease is due to regularly schedule principal payments.

Additional information on the Charter School's long-term liabilities can be found in Note 3E on page 43 of this report.

Factors Bearing on the Charter School's Future

The school is dependent on the State of Minnesota for its revenue authority. Recent experience demonstrates that legislated revenue increases have not been sufficient to meet instructional program needs and increased costs due to inflation. As stated in last year's report, the school needed to increase enrollment and reduce lease expenditures on rental costs. Prior to the completion of the FY 17 fiscal year, the school signed a new lease agreement with Northern Light Church of Christ located in Brooklyn Park. Our annual lease costs have been reduced for the upcoming year in excess of \$90,000 as compared to its previous lease agreement. In addition, the school has had an increase in program applications not only from its primary population but also from the local community. This is something that the school was unable to accomplish in its previous location.

During the FY 18 school year, the school increased its student count by 20% over the previous year. In addition, the school worked diligently to ensure that its fund 2 food account would end up on the positive side and was successful in that venture. This in addition to lower rental costs has helped to increase its previously depleting fund balance. However, at the end of the FY 18, the school experience problems with bus company providing transportation services for the school. As a result of these problems, during the FY19 school year, the student count decreased again 20% over the previous year. In addition, 8 snow days accumulated during the school year have resulted in a negative balance in Fund 2 food account. To resolve the issues, a new carrier has been secured which allowed the school to run more efficient routes and be more consistent in pick up and deliveries. School administration was restructured, and two positions of Executive Director and Lead Teacher were merged and assigned to one person. The school administration has renegotiated lease agreement with Northern Light Church of Christ to reflect the low enrollment projections for the FY20.

With this increased interest, the school now expects that state and federal aids received will support the planned level of expenditures for FY 20 and beyond. The preliminary enrollment for FY20 has increased by 25%. The school board and administration are planning a series of strategic planning sessions and initiatives to bust school enrollment. The school will continue to strive to maintain its commitment to academic excellence and educational opportunity for students within a framework of financial fiduciary responsibility.

Requests for Information

This financial report is designed to provide a general overview of the Charter School's finances for all those with an interest in the Charter School's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the School Director of Nasha Shkola Charter School No. 4208, 6717 85th Avenue North, Brooklyn Park, Minnesota 55445.

Governmental Funds
June 30, 2019

Amounts reported for governmental activities in the statement of net position are different because

Total Fund Balances - Governmental Funds	\$ (3,500)
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds.	
Cost of capital assets	26,395
Less: accumulated depreciation	(21,479)
Noncurrent liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported as liabilities in the funds.	
Noncurrent liabilities at year-end consist of	
Loans payable	(2,858)
Net pension liability	(614,438)
Governmental funds do not report long-term amounts related to pensions.	
Deferred outflow of pension resources	830,996
Deferred inflow of pension resources	<u>(1,107,785)</u>
Total Net Position - Governmental Activities	<u>\$ (892,669)</u>

The notes to the financial statements are an integral part of this statement.

Reconciliation of the Statement of Revenues, Expenditures and
Changes in Fund Balances to the Statement of Activities
Governmental Funds
For the Year Ended June 30, 2019

Amounts reported for governmental activities in the statement of activities are different because

Net Change in Fund Balances - Total Governmental Funds	\$ (48,960)
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over the estimated useful lives as depreciation expense.	
Depreciation expense	(4,508)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are amortized in the statement of activities. The amounts below are the effects of these differences in the treatment of long-term debt and related items.	
Principal repayments	12,000
Long-term pension activity is not reported in governmental funds.	
Pension revenue (expense)	32,797
Pension expense	<u>163,771</u>
Change in Net Position of Governmental Activities	<u><u>\$ 155,100</u></u>

The notes to the financial statements are an integral part of this statement.

Nasha Shkola
Charter School No. 4208
Brooklyn Park, Minnesota
Notes to the Financial Statements
June 30, 2019

Note 1: Summary of Significant Accounting Policies

A. Reporting Entity

Nasha Shkola Charter School No. 4208 (the Charter School), Brooklyn Park, Minnesota was incorporated as a non-profit corporation under section 501(c)3 of the Internal Revenue Code of 1954, for the purpose of providing educational services to individuals in kindergarten through grade 8 who are bilingual in Russian and English. The Charter School has been authorized, as defined in Minnesota statute 124d, by Innovative Quality Schools. The Charter School is governed by a maximum nine-member Board of Education. The Charter School has considered all potential units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the Charter School are such that exclusion would cause the Charter School's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board (GASB) has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the primary government to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on the primary government. The Charter School has no component units that meet the GASB criteria.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the Charter School.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. State aid-formula grants and other items not properly included among program revenues are reported instead as *general revenues*.

Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. State revenue is recognized in the year to which it applies according to Minnesota statutes and accounting principles generally accepted in the United States of America. Minnesota statutes include state aid funding formulas for specific fiscal years. Federal revenue is recorded in the year in which the related expenditure was made. Other revenue is considered available if collected within one year.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds.

Nasha Shkola
Charter School No. 4208
Brooklyn Park, Minnesota
Notes to the Financial Statements
June 30, 2019

Note 1: Summary of Significant Accounting Policies (Continued)

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available.

Non-exchange transactions, in which the Charter School receives value without directly giving equal value in return, include grants, entitlement and donations. Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the Charter School must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the Charter School on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transaction must also be available before it can be recognized.

This preparation of the basic financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumption that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Description of Funds

The Charter School funds have been established by the State of Minnesota Department of Education. Each fund is accounted for as an independent entity. Descriptions of the funds included in the report are as follows:

Major Governmental Funds

The *General fund* is the Charter School's primary operating fund. It accounts for all financial resources of the Charter School, except those required to be accounted for in another fund.

The *Food Service special revenue fund* is used to account for food service revenue and expenditures. The primary revenue source is intergovernmental revenue from state and federal sources that are restricted for food service operations.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Notes to the Financial Statements
June 30, 2019

Note 1: Summary of Significant Accounting Policies (Continued)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position/Fund Balance

Deposits and Investments

The Charter School's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

The Charter School may also invest idle funds as authorized by Minnesota statutes, as follows:

1. Direct obligations or obligations guaranteed by the United States or its agencies.
2. Shares of investment companies registered under the Federal Investment Company Act of 1940 and received the highest credit rating, rated in one of the two highest rating categories by a statistical rating agency, and have a final maturity of thirteen months or less.
3. General obligations of a state or local government with taxing powers rated "A" or better; revenue obligations rated "AA" or better.
4. General obligations of the Minnesota Housing Finance Agency rated "A" or better.
5. Obligation of a school district with an original maturity not exceeding 13 months and (i) rated in the highest category by a national bond rating service or (ii) enrolled in the credit enhancement program pursuant to statute section 126C.55.
6. Bankers' acceptances of United States banks eligible for purchase by the Federal Reserve System.
7. Commercial paper issued by United States banks corporations or their Canadian subsidiaries, of highest quality category by at least two nationally recognized rating agencies, and maturing in 270 days or less.
8. Repurchase or reverse repurchase agreements and securities lending agreements with financial institutions qualified as a "depository" by the government entity, with banks that are members of the Federal Reserve System with capitalization exceeding \$10,000,000, a primary reporting dealer in U.S. government securities to the Federal Reserve Bank of New York, or certain Minnesota securities broker-dealers.
9. Guaranteed Investment Contracts (GIC's) issued or guaranteed by a United States commercial bank, a domestic branch of a foreign bank, a United States insurance company, or its Canadian subsidiary, whose similar debt obligations were rated in one of the top two rating categories by a nationally recognized rating agency.

The Charter School currently does not have any student activity accounts.

Accounts Receivable

Accounts receivable include amounts billed for services provided before year end. No substantial losses are anticipated from present receivable balances, therefore no allowance for uncollectible has been recorded.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Nasha Shkola
Charter School No. 4208
Brooklyn Park, Minnesota
Notes to the Financial Statements
June 30, 2019

Note 1: Summary of Significant Accounting Policies (Continued)

Capital Assets

Capital assets include property, plant, equipment and infrastructure assets (e.g., roads, parking lots, sidewalks, and similar items). Capital assets are defined by the Charter School as assets with an initial, individual cost of more than \$1,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Capital assets are recorded in the government-wide financial statements, but are not reported in the fund financial statements. Equipment of the Charter School are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Useful Lives in Years</u>
Equipment	5 - 20

The School does not own any buildings or related infrastructure.

Deferred Outflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The government has only one item that qualifies for reporting in this category. Accordingly, the item, deferred pension resources, is reported only in the statement of net position. This item results from actuarial calculations and current year pension contributions made subsequent to the measurement date.

Compensated Absences

Teachers are not eligible to accrue vacation pay and the amounts accrued to the eligible salaried employees are insignificant. All employees are entitled to ten days of sick pay per year. Sick leave may not be accrued and will not be paid out for any reason if not used within one school year.

Pensions

Teachers Retirement Association (TRA)

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Teachers Retirement Association (TRA) and additions to/deductions from TRA's fiduciary net position have been determined on the same basis as they are reported by TRA.

TRA has a special funding situation created by direct aid contributions made by the State of Minnesota, City of Minneapolis and Minneapolis School District. The direct aid is a result of the merger of the Minneapolis Teachers Retirement Fund Association merger into TRA in 2006. Additional information can be found in Note 6.

Nasha Shkola
Charter School No. 4208
Brooklyn Park, Minnesota
Notes to the Financial Statements
June 30, 2019

Note 1: Summary of Significant Accounting Policies (Continued)

Public Employees Retirement Association (PERA)

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA except that PERA's fiscal year end is June 30. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The General fund is typically used to liquidate the governmental net pension liability. Investments are reported at fair market value.

The total pension expense for the GERF and TRA is as follows:

	<u>GERF</u>	<u>TRA</u>	<u>Total Pension Expense</u>
Pension Expense	\$ 14,129	\$ (161,934)	\$ (147,805)

Deferred Inflows of Resources

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Charter School has one type of item, which arises only under a full accrual basis of accounting that qualifies as needing to be reported in this category. Accordingly, the item, deferred pension resources, is reported only in the statement of net position of the government-wide statements and results from actuarial calculations.

Fund Balance

In the fund financial statements, fund balance is divided into five classifications based primarily on the extent to which the Charter School is bound to observe constraints imposed upon the use of resources reported in the governmental funds. These classifications are defined as follows:

Nonspendable - Amounts that cannot be spent because they are not in spendable form, such as prepaid items.

Restricted - Amounts related to externally imposed constraints established by creditors, grantors or contributors; or constraints imposed by Minnesota statutory provisions.

Committed - Amounts constrained for specific purposes that are internally imposed by formal action (resolution) of the Board of Education, which is the Charter School's highest level of decision-making authority. Committed amounts cannot be used for any other purpose unless the Board of Education modifies or rescinds the commitment by resolution.

Assigned - Amounts constrained for specific purposes that are internally imposed. In governmental funds other than the General fund, assigned fund balance represents all remaining amounts that are not classified as nonspendable and are neither restricted nor committed. In the General fund, assigned amounts represent intended uses established by the Board of Education itself or by an official to which the governing body delegates the authority. The Board of Education chose not to pass a resolution authorizing anyone to assign fund balances and their intended uses.

Unassigned - The residual classification for the General fund and also negative residual amounts in other funds.

The Charter School considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available. Additionally, the Charter School would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

Nasha Shkola
Charter School No. 4208
Brooklyn Park, Minnesota
Notes to the Financial Statements
June 30, 2019

Note 1: Summary of Significant Accounting Policies (Continued)

Net Position

Net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net position is displayed in three components:

- a. Investment in capital assets - Consists of capital assets, net of accumulated depreciation.
- b. Restricted net position - Consists of net position restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, laws or regulations of other governments.
- c. Unrestricted net position - All other net position that do not meet the definition of "restricted" or "investment in capital assets".

When both restricted and unrestricted resources are available for use, it is the Charter School's policy to use restricted resources first, then unrestricted resources as they are needed.

Note 2: Stewardship, Compliance and Accountability

A. Budgetary Information

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for the General fund and Food Service special revenue fund. All annual appropriations lapse at fiscal year-end.

Budgets are prepared for Charter School funds on the same basis and using the same accounting practices that are used in accounting and preparing financial statements for the General, Food Service and Community Service special revenue funds.

The Charter School follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to July 1, the budget is prepared by the Administrator to be adopted by the Board of Education.
2. Budgets for the General fund and Food Service special revenue fund are adopted on a basis consistent with accounting principles generally accepted in the United States of America (GAAP).
3. Budgeted amounts are as originally adopted, or as amended.
4. Budget appropriations lapse at year end.
5. The legal level of control is the fund level.
6. The Charter School does not use encumbrance accounting.

At the end of each fiscal year, if the General Fund has a net unassigned deficit fund balance, calculated in accordance with the uniform financial accounting and reporting standards for Minnesota schools which excludes certain restricted balances specified in Minnesota Statutes, exceeding 2.5% of expenditures, a condition referred to as "statutory operating debt" exists. That debt requires retirement through the accumulation of subsequent operating surpluses in accordance with a "special operating plan" approved by the Commissioner of the Department of Education. The School currently has a negative fund balance of 0.24% fund balance.

Nasha Shkola
Charter School No. 4208
Brooklyn Park, Minnesota
Notes to the Financial Statements
June 30, 2019

B. Excess of Expenditures Over Appropriations

For the year ended June 30, 2019 expenditures exceeded appropriations in the following fund:

Fund	Final Budget	Actual	Excess of Expenditures Over Appropriations
General Fund	\$ 1,430,967	\$ 1,441,043	\$ 10,076

These expenditures over appropriations were funded by actual revenues exceeding budget and remaining fund balances.

Note 3: Detailed Notes on All Funds

A. Deposits and Investments

Custodial credit risk for deposits and investments is the risk that in the event of a bank failure, the Charter School's deposits and investments may not be returned or the Charter School will not be able to recover collateral securities in the possession of an outside party. In accordance with Minnesota statutes and as authorized by the Board of Education, the Charter School maintains deposits at those depository banks, all of which are members of the Federal Reserve System.

Minnesota statutes require that all Charter School deposits be protected by insurance, surety bond or collateral. The market value of collateral pledged must equal 110 percent of the deposits not covered by insurance or bonds, with the exception of irrevocable standby letters of credit issued by Federal Home Loan Banks as this type of collateral only requires collateral pledged equal to 100 percent of the deposits not covered by insurance or bonds.

Authorized collateral in lieu of a corporate surety bond includes:

- United States government Treasury bills, Treasury notes, Treasury bonds;
- Issues of United States government agencies and instrumentalities as quoted by a recognized industry quotation service available to the government entity;
- General obligation securities of any state or local government with taxing powers which is rated "A" or better by a national bond rating service, or revenue obligation securities of any state or local government with taxing powers which is rated "AA" or better by a national bond rating service;
- General obligation securities of a local government with taxing powers may be pledged as collateral against funds deposited by that same local government entity;
- Irrevocable standby letters of credit issued by Federal Home Loan Banks to a municipality accompanied by written evidence that the bank's public debt is rated "AA" or better by Moody's Investors Service, Inc., or Standard & Poor's Corporation; and
- Time deposits that are fully insured by any federal agency.

Minnesota statutes require that all collateral shall be placed in safekeeping in a restricted account at a Federal Reserve Bank, or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral. The selection should be approved by the Charter School.

At year end, the Charter School's carrying amount of deposits was \$71,016 and the bank balance was \$71,499. The bank balance was fully covered by federal depository insurance.

Nasha Shkola
Charter School No. 4208
Brooklyn Park, Minnesota
Notes to the Financial Statements
June 30, 2019

Note 3: Detailed Notes on All Funds (Continued)

B. Capital Assets

Capital asset activity for the year ended June 30, 2019, was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Governmental Activities				
Capital Assets being Depreciated				
Equipment and Furniture	\$ 26,395	\$ -	\$ -	\$ 26,395
Less Accumulated Depreciation for Equipment and Furniture	<u>(16,971)</u>	<u>(4,508)</u>	<u>-</u>	<u>(21,479)</u>
Governmental Activities Capital Assets, Net	<u>\$ 9,424</u>	<u>\$ (4,508)</u>	<u>\$ -</u>	<u>\$ 4,916</u>

Depreciation expense was charged to functions of the Charter School as follows:

Governmental Activities	
Elementary and secondary regular instruction	\$ 4,022
Instructional support services	310
Sites and buildings	<u>176</u>
Total Depreciation Expense - Governmental Activities	<u>\$ 4,508</u>

C. Interfund Transfer

The General fund budgeted for a transfer out \$1,500 to the Food Service special revenue to eliminate a potential year end deficit fund balance. The revised budgets did not include a transfer from the General fund to the Food Service special revenue fund. The actual transfer made by the school to eliminate Food Service special revenue deficit fund balance was \$1,154.

D. Operating Leases

The Charter School signed a lease agreement with the Minnesota Conference Association of Seventh-day Adventists for classroom and administrative space, for a five-year period commencing on July 1, 2014. The lease requires a minimum annual lease payment amount; however the lease costs may be higher if the number of pupil units served multiplied by \$1,460 is greater than the minimum required lease payments.

The Charter School entered into a new lease agreement with Northern Lights Church of Christ for classroom and administrative space for a five-year period commencing on July 1, 2017. The lease expense was \$175,200 for the year ended June 30, 2019. Future minimum lease payments on the new lease are as follows:

Year Ending June 30,	Amount
2020	\$ 197,100
2021	204,400
2022	<u>204,400</u>
Total Minimum Lease Payments	<u>\$ 605,900</u>

Charter School No. 4208
Brooklyn Park, Minnesota
Notes to the Financial Statements
June 30, 2019

Note 3: Detailed Notes on All Funds (Continued)

E. Long-term Liabilities

Loans Payable

The Charter School entered into a loan payable with Gedaly Meerovich for various School needs on February 15, 2012. The loan terms state the draws may not exceed \$130,000 in the life of the loan. Further details of the loan are as follows:

Description	Amount Issued	Interest Rate	Issue Date	Maturity Date	Balance at Year End
Gedaly Meerovich	\$ 72,750	4.50 %	02/15/12	09/01/19	<u>\$ 2,858</u>

Annual debt service requirements to maturity for the loans payable are as follows:

Year Ending June 30,	Loans Payable		
	Principal	Interest	Total
2020	<u>\$ 2,858</u>	<u>\$ 21</u>	<u>\$ 2,879</u>

Changes in Long-term Liabilities

Long-term liability activity for the year ended June 30, 2019, was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance	Due Within One Year
Governmental Activities					
Loans Payable	\$ 14,858	\$ -	\$ (12,000)	\$ 2,858	\$ 2,858
Pension Liability					
TRA	1,876,411	27,865	(1,356,409)	547,867	-
PERA	76,607	-	(10,036)	66,571	-
Governmental Activity Long-term Liabilities	<u>\$ 1,967,876</u>	<u>\$ 27,865</u>	<u>\$ (1,378,445)</u>	<u>\$ 617,296</u>	<u>\$ 2,858</u>

F. Short-term Indebtedness

The Charter School has a line of credit agreement with Venture Bank to assist with the timing of cash flows. The line of credit was issued with a maximum amount of \$75,000 and an interest rate of 5.50 percent. The Charter School also agreed to a loan with an individual on May 31, 2018 for \$5,000. The loan has no interest and will be paid back early in FY19. For the year ended June 30, 2019, the indebtedness activity was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Line of Credit	\$ 75,000	\$ 66,000	\$ (115,000)	\$ 26,000
Short Term Borrowing	5,000	-	(5,000)	-
Total	<u>\$ 80,000</u>	<u>\$ 66,000</u>	<u>\$ (120,000)</u>	<u>\$ 26,000</u>

Notes to the Financial Statements
June 30, 2019

Note 4: Other Information

A. Risk Management

The Charter School is exposed to various risks of loss related to torts: theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters for which the Charter School carries commercial insurance. Settled claims have not exceeded this commercial coverage for the past three years.

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities, if any, include an amount for claims that have been incurred but not reported (IBNRs). The Charter School's management is not aware of any incurred but not reported claims.

B. Economic Dependency

The Charter School has a significant amount of revenue (92 percent) coming from the State of Minnesota.

C. Income Taxes

The Charter School is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. The Charter School also qualifies as a tax-exempt organization under applicable statutes of the State of Minnesota.

The Charter School has evaluated and determined that there are no uncertain tax positions as of June 30, 2019. The Charter School's tax returns are subject to possible examination by the taxing authorities.

Note 5: Commitments and Contingencies

Federal and State Programs

Amounts received or receivable from federal and state agencies are subject to agency audit and adjustment. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable fund. The amount, if any, of funds which may be disallowed by the agencies cannot be determined at this time although the School expects such amounts, if any, to be immaterial.

Note 6: Defined Benefit Pension Plans - Statewide

A. Teachers Retirement Association (TRA)

A. Plan Description

The Teachers Retirement Association (TRA) is an administrator of a multiple employer, cost-sharing, defined benefit retirement fund. TRA administers a Basic Plan (without Social Security coverage) and a Coordinated Plan (with Social Security coverage) in accordance with Minnesota statutes, chapters 354 and 356. TRA is a separate statutory entity and administered by a Board of Trustees. The Board consists of four active members, one retired member and three statutory officials.

Educators employed in Minnesota's public elementary and secondary school, charter schools, and certain other TRA-covered educational institutions maintained by the state are required to be TRA members (except those employed by St. Paul schools or Minnesota State colleges and universities). Educators first hired by Minnesota State may elect either TRA coverage or coverage through Minnesota State's Individual Retirement Account Plan (IRAP) within one year of eligible employment.

Nasha Shkola
Charter School No. 4208
Brooklyn Park, Minnesota
Notes to the Financial Statements
June 30, 2019

Note 6: Defined Benefit Pension Plans - Statewide (Continued)

B. Benefits Provided

TRA provides retirement benefits as well as disability benefits to members and benefits to survivors upon death of eligible members. Benefits are established by Minnesota statute and vest after three years of service credit. The defined retirement benefits are based on a member's highest average salary for any five consecutive years of allowable service, age and a formula multiplier based on years of credit at termination of service.

Two methods are used to compute benefits for TRA's Coordinated and Basic Plan members. Members first employed before **July 1, 1989** receive the greater of the Tier I or Tier II as described:

Tier I:	Step Rate Formula	Percentage
Basic	1st ten years of service	2.2 percent per year
	All years after	2.7 percent per year
Coordinated	1st ten years if service years are prior to July 1, 2006	1.2 percent per year
	1st ten years if service years are July 1, 2006 or after	1.4 percent per year
	All other years of service if service years are prior to July 1, 2006	1.7 percent per year
	All other years of service if service years are July 1, 2006 or after	1.9 percent per year

With these provisions:

1. Normal retirement age is 65 with less than 30 years of allowable service and age 62 with 30 or more years of allowable service.
2. Three percent per year early retirement reduction factors for all years under normal retirement age.
3. Unreduced benefits for early retirement under a Rule-of-90 (age plus allowable service equals 90 or more).

or

Tier II: For years of service prior to July 1, 2006, a level formula of 1.7 percent per year for coordinated members and 2.7 percent per year for basic members. For years of service July 1, 2006 and after, a level formula of 1.9 percent per year for Coordinated members and 2.7 percent per year for Basic members applies. Beginning July 1, 2015, the early retirement reduction factors are based on rates established under Minnesota statute. Smaller reductions, more favorable to the member, will be applied to individuals who reach age 62 and have 30 years or more of service credit.

Members first employed after **June 30, 1989** receive only the Tier II calculation with a normal retirement age that is their retirement age for full Social Security retirement benefits, but not to exceed age 66.

Six different types of annuities are available to members upon retirement. The No Refund Life Plan is a lifetime annuity that ceases upon the death of the retiree - no survivor annuity is payable. A retiring member may also choose to provide survivor benefits to a designated beneficiary(ies) by selecting one of the five plans, that have survivorship features. Vested members may also leave their contributions in the TRA Fund upon termination of service in order to qualify for a deferred annuity at retirement age. Any member terminating service is also eligible for a refund of their employee contributions plus interest.

Nasha Shkola
Charter School No. 4208
Brooklyn Park, Minnesota
Notes to the Financial Statements
June 30, 2019

Note 6: Defined Benefit Pension Plans - Statewide (Continued)

The benefit provisions stated apply to active plan participants. Vested, terminated employees who are entitled to benefits but not yet receiving them are bound by the provisions in effect at the time they last terminated their public service.

C. Contribution Rate

Per Minnesota statutes, chapter 354 sets the contribution rates for employees and employers. Rates for each fiscal year were:

Plan	Ending June 30, 2017		Ending June 30, 2018		Ending June 30, 2019	
	Employee	Employer	Employee	Employer	Employee	Employer
Basic	11.00%	11.50%	11.00%	11.50%	11.00%	11.71%
Coordinated	7.50%	7.50%	7.50%	7.50%	7.50%	7.71%

The Charter School's contributions to TRA for the year ending June 30, 2019, 2018, 2017 were \$36,815, \$38,138, and \$34,016. The Charter School's contributions were equal to the contractually required contributions for each year as set by Minnesota Statute.

The following is a reconciliation of employer contributions in TRA's CAFR "Statement of Changes in Fiduciary Net Position" to the employer contributions used in Schedule of Employer and Non-Employer Pension Allocations.

Employer Contributions Reported in TRA's CAFR Statement of Changes in Fiduciary Net Position	\$ 378,728,000
Add Employer Contributions not Related to Future Contribution Efforts	522,000
Deduct TRA's Contributions not Included in Allocation	<u>(471,000)</u>
Total Employer Contributions	378,779,000
Total Non-employer Contributions	<u>35,588,000</u>
Total Contributions Reported in Schedule of Employer and Non-employer Pension Allocations	<u><u>\$ 414,367,000</u></u>

Amounts reported in the allocation schedules may not precisely agree with financial statement amounts or actuarial valuations due to the number of decimal places used in the allocations. TRA has rounded percentage amounts to the nearest ten thousandths.

Charter School No. 4208
Brooklyn Park, Minnesota
Notes to the Financial Statements
June 30, 2019

Note 6: Defined Benefit Pension Plans - Statewide (Continued)

D. Actuarial Assumptions

The total pension liability in the June 30, 2018, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement.

Key Methods and Assumptions Used in Valuation of Total Pension Liability

Actuarial Information	
Valuation date	July 1, 2018
Experience study	June 5, 2015
Actuarial cost method	Entry Age Normal
Actuarial assumptions	
Investment rate of return	7.50%
Price inflation	2.50%
Wage growth rate	2.85% for ten years and 3.25% thereafter
Projected salary increase	2.85 to 8.85% for tens years and 3.25 to 9.25% thereafter
Cost of living adjustment	1.0% for January 2019 through January 2023, then increasing by 0.1% each year up to 1.5 annually.
Mortality Assumption	
Pre-retirement	RP-2014 white collar employee table, male rates set back six years and female rates set back five years. Generational projection uses the MP-2015 scale.
Post-retirement	RP-2014 white collar annuitant table, male rates set back three years and female rates set back three years, with further adjustments of the rates. Generational projection uses the MP-2015 scale.
Post-disability	RP-2014 disabled retiree mortality table, without adjustment.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Domestic Equity	36.00 %	5.10 %
International Equity	17.00	5.30
Private Markets	25.00	5.90
Fixed Income	20.00	0.75
Unallocated Cash	2.00	-
Total	100.00 %	

Nasha Shkola
Charter School No. 4208
Brooklyn Park, Minnesota
Notes to the Financial Statements
June 30, 2019

Note 6: Defined Benefit Pension Plans - Statewide (Continued)

The TRA actuary has determined the average of the expected remaining service lives of all members for fiscal year 2016 is 6.00 years. The "Difference Between Expected and Actual Experience", "Changes of Assumptions" and "Changes in Proportion" use the amortization period of 6.00 years in the schedule presented. The amortization period for "Net Difference Between Projected and Actual Investment Earnings on Pension Plan Investments" is 5.00 years as required by GASB 68.

Changes in actuarial assumptions since the 2017 valuation:

- The COLA was reduced from 2.0% each January 1 to 1.0%, effective January 1, 2019. Beginning January 1, 2024, the COLA will increase 0.1 % each year until reaching the ultimate rate of 1.5% in January 1, 2028.
- Beginning July 1, 2024, eligibility for the first COLA changes to normal retirement age (age 65 to 66, depending on date of birth). However, members who retire under Rule of 90 and members who are at least age 62 with 30 years of service credit are exempt.
- The COLA trigger provision, which would have increased the COLA to 2.5% if the funded ratio was at least 90% for two consecutive years, was eliminated.
- Augmentation in the early retirement reduction factors is phased out over a five-year period beginning July 1, 2019 and ending June 30, 2024 (this reduces early retirement benefits). Members who retire and are at least age 62 with 30 years of service are exempt.
- Augmentation on deferred benefits will be reduced to zero percent beginning July 1, 2019. Interest payable on refunds to members was reduced from 4.0% to 3.0%, effective July 1, 2018. Interest due on payments and purchases from members, employers is reduced from 8.5% to 7.5%, effective July 1, 2018.
- The employer contribution rate is increased each July 1 over the next 6 years, (7.71 % in 2018, 7.92% in 2019, 8.13% in 2020, 8.34% in 2021, 8.55% in 2022, and 8.75% in 2023). In addition, the employee contribution rate will increase from 7.50% to 7.75% on July 1, 2023. The state provides funding for the higher employer contribution rate through an adjustment in the school aid formula.

E. Discount Rate

The discount rate used to measure the total pension liability was 7.50 percent. This is an increase from the discount rate at the prior measurement date of 5.12 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the fiscal year 2018 contribution rate, contributions from school districts will be made at contractually required rates (actuarially determined), and contributions from the state will be made at current statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was not projected to be depleted and, as a result, the Municipal Bond Index Rate was not used in the determination of the Single Equivalent Interest Rate (SEIR).

F. Net Pension Liability

On June 30, 2019 the Charter School reported a liability of \$547,867 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Charter School's proportion of the net pension liability was based on the Charter School's contributions to TRA in relation to total system contributions including direct aid from the State of Minnesota, City of Minneapolis and Minneapolis School District. The Charter School's proportionate share was 0.0087 percent at the end of the measurement period which was a decrease of 0.0007 percent from its proportion measured as of June 30, 2017.

Nasha Shkola
Charter School No. 4208
Brooklyn Park, Minnesota
Notes to the Financial Statements
June 30, 2019

Note 6: Defined Benefit Pension Plans - Statewide (Continued)

The pension liability amount reflected a reduction due to direct aid provided to TRA. The amount recognized by the charter school as its proportionate share of the net pension liability, the direct aid, and total portion of the net pension liability that was associated with the charter school were as follows:

Charter School's Proportionate Share of Net Pension Liability	\$ 547,867
State's Proportionate Share of Net Pension Liability Associated with the Charter School	51,246

For the year ended June 30, 2019 the charter school recognized negative pension expense of \$197,700. It also recognized \$35,766 as an increase to pension expense for the support provided by direct aid.

On June 30, 2019 the Charter School had deferred resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between Expected and Actual Economic Experience	\$ 5,262	\$ 11,019
Changes in Actuarial Assumptions	701,543	933,674
Net Difference between Projected and Actual Earnings on Plan Investments	-	39,883
Changes in Proportion	66,850	100,326
Contributions to TRA Subsequent to the Measurement Date	<u>36,144</u>	<u>-</u>
Total	<u>\$ 809,799</u>	<u>\$ 1,084,902</u>

Deferred outflows of resources totaling \$36,144 related to pensions resulting from the Charter School's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

2020	\$ 69,604
2021	14,014
2022	(4,841)
2023	(241,975)
2024	(148,049)

G. Pension Liability Sensitivity

The following presents the net pension liability of TRA calculated using the discount rate of 7.50 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent) or one percentage point higher (8.50 percent) than the current rate.

<u>Charter School's Proportionate Share of NPL</u>		
<u>1 Percent Decrease (6.50%)</u>	<u>Current (7.50%)</u>	<u>1 Percent Increase (8.50%)</u>
\$ 869,463	\$ 547,867	\$ 282,553

Nasha Shkola
Charter School No. 4208
Brooklyn Park, Minnesota
Notes to the Financial Statements
June 30, 2019

Note 6: Defined Benefit Pension Plans - Statewide (Continued)

The District's proportion of the net pension liability was based on the employer contributions to TRA in relation to TRA's total employer contributions including direct aid contributions from the State of Minnesota, City of Minneapolis and Minneapolis School District.

H. Pension Plan Fiduciary Net Position

Detailed information about the plan's fiduciary net position is available in a separately-issued TRA financial report. That report can be obtained at www.MinnesotaTRA.org, by writing to TRA at 60 Empire Drive, Suite 400, St. Paul, MN, 55103-4000; or by calling (651) 296-2409 or (800) 657-3669.

B. Public Employees Retirement Association (PERA)

A. Plan Description

The District participates in the following cost-sharing multiple-employer defined benefit pension plans administered by the Public Employees Retirement Association of Minnesota (PERA). PERA's defined benefit pension plans are established and administered in accordance with Minnesota statutes, chapters 353 and 356. PERA's defined benefit pension plans are tax qualified plans under Section 401(a) of the Internal Revenue Code.

General Employees Retirement Plan (GERF)

All full-time and certain part-time employees of the District are covered by the General Employees Retirement Fund (GERF). GERF members belong to the Coordinated Plan. Coordinated Plan members are covered by Social Security.

B. Benefits Provided

PERA provides retirement, disability and death benefits. Benefit provisions are established by Minnesota statute and can only be modified by the state legislature. Vested, terminated employees who are entitled to benefits but are not receiving them yet are bound by the provisions in effect at the time they last terminated their public service.

GERF Benefits

Benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated Plan members. Members hired prior to July 1, 1989 receive the higher of Method 1 or Method 2 formulas. Only Method 2 is used for members hired after June 30, 1989. Under Method 1, the accrual rate for Coordinated members is 1.2 percent of average salary for each of the first 10 years of service and 1.7 percent of average salary for each additional year. Under Method 2, the accrual rate for Coordinated members is 1.7 percent of average salary for all years of service. For members hired prior to July 1, 1989 a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989 normal retirement age is the age for unreduced Social Security benefits capped at 66.

Benefit increases are provided to benefit recipients each January. Increases are related to the funding ratio of the plan. If the General Employees Plan is at least 90 percent funded for two consecutive years, benefit recipients are given a 2.5 percent increase. If the plan has not exceeded 90 percent funded, or have fallen below 80 percent, benefit recipients are given a one percent increase. A benefit recipient who has been receiving a benefit for at least 12 full months as of June 30 will receive a full increase. Members receiving benefits for at least one month but less than 12 full months as of June 30 will receive a pro rata increase.

Nasha Shkola
Charter School No. 4208
Brooklyn Park, Minnesota
Notes to the Financial Statements
June 30, 2019

Note 6: Defined Benefit Pension Plans - Statewide (Continued)

C. Contributions

Plan members were required to contribute 6.50 percent of their annual covered salary and the City was required to contribute 7.50 percent of pay for Coordinated Plan members in fiscal year 2019. Minnesota statutes chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the state legislature.

GERF Contributions

The Charter School's contributions to the GERF for June 30, 2019, 2018, and 2017 were \$6,284, \$6,060, and \$5,748, respectively. The Charter School's contributions were equal to the required contributions for each year as set by Minnesota statute.

D. Pension Costs

At June 30, 2019, the Charter School reported a liability of \$66,571 for its proportionate share of the GERF's net pension liability. The Charter School's net pension liability reflected a reduction due to the State of Minnesota's contribution of \$16 million to the fund in 2018. The State of Minnesota is considered a non-employer contributing entity and the State's contribution meets the definition of a special funding situation. The State of Minnesota's proportionate share of the net pension liability associated with the Charter School totaled \$2,114. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Charter School's proportionate share of the net pension liability was based on the Charter School's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2017 through June 30, 2018 relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2018, the Charter School's proportion was 0.0012 percent, which was a decrease of 0.0002 percent from its proportion measured as of June 30, 2017.

Charter School's Proportionate Share of the Net Pension Liability	\$ 66,571
State of Minnesota's Proportionate Share of the Net Pension Liability Associated with the Charter School	<u>2,114</u>
Total	<u><u>\$ 68,685</u></u>

For the year ended June 30, 2019 the Charter School recognized pension expense of \$13,937 for its proportionate share of GERF's pension expense. In addition, the District recognized an additional \$192 as pension expenses (and grant revenue) for its proportionate share of the State of Minnesota's contribution of \$16 million to the GERF.

Nasha Shkola
Charter School No. 4208
Brooklyn Park, Minnesota
Notes to the Financial Statements
June 30, 2019

Note 6: Defined Benefit Pension Plans - Statewide (Continued)

At June 30, 2019 the Charter School reported its proportionate share of GERS's deferred outflows of resources and deferred inflows of resources, and its contributions subsequent to the measurement date, from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between Expected and Actual Economic Experience	\$ 1,747	\$ 1,828
Changes in Actuarial Assumptions	6,250	7,480
Net Difference between Projected and Actual Earnings on Plan Investments	-	7,478
Changes in Proportion	6,916	6,097
Contributions to GERS Subsequent to the Measurement Date	6,284	-
	<u>6,284</u>	<u>-</u>
Total	<u>\$ 21,197</u>	<u>\$ 22,883</u>

Deferred outflows of resources totaling \$6,284 related to pensions resulting from Charter School contributions to GERS subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. Other amounts reported as deferred outflows and inflows of resources related to GERS pensions will be recognized in pension expense as follows:

2020	\$ 5,340
2021	(6,517)
2022	(5,400)
2023	(1,393)

E. Actuarial Assumptions

The total pension liability in the June 30, 2018, actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.50% per year
Active Member Payroll Growth	3.25% per year
Investment Rate of Return	7.50%

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors and disabilitants were based on RP-2014 tables for all plans for males or females, as appropriate, with slight adjustments to fit PERA's experience. Cost of living benefit increases after retirement for retirees are assumed to be 1.25 percent per year. Actuarial assumptions used in the June 30, 2018 valuation were based on the results of actuarial experience studies. The most recent four-year experience study was completed in 2015.

The following changes in actuarial assumptions occurred in 2018:

GERS

- The mortality projection scale was changed from MP-2015 to MP-2017.
- The assumed benefit increase was changed from 1.0 percent per year through 2044 and 2.50 percent per year thereafter to 1.25 percent per year.

Nasha Shkola
Charter School No. 4208
Brooklyn Park, Minnesota
Notes to the Financial Statements
June 30, 2019

Note 6: Defined Benefit Pension Plans - Statewide (Continued)

The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Domestic Stocks	36.00 %	5.10 %
International Stocks	17.00	5.30
Bonds (Fixed Income)	20.00	0.75
Alternative Assets (Private Markets)	25.00	5.90
Cash	2.00	-
	<u>100.00 %</u>	
Total	<u>100.00 %</u>	

F. Discount Rate

The discount rate used to measure the total pension liability in 2018 was 7.50 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in Minnesota statutes. Based on these assumptions, the fiduciary net position of the GERP were projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

G. Pension Liability Sensitivity

The following presents the Charter School's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the Charter School's proportionate share of the net pension liability would be if it were calculated using a discount rate 1 percentage point lower or 1 percentage point higher than the current discount rate:

Charter School's Proportionate Share of NPL		
1 Percent Decrease (6.50%)	Current (7.50%)	1 Percent Increase (8.50%)
\$ 108,187	\$ 66,571	\$ 32,219

H. Pension Plan Fiduciary Net Position

Detailed information about each pension plan's fiduciary net position is available in a separately-issued PERA financial report that includes financial statements and required supplementary information. That report may be obtained on the Internet at www.mnpera.org.

Notes to the Required Supplementary Information - TRA

Changes In Actuarial Assumptions

2018 - The investment return assumption was changed from 8.50% to 7.50%. The price inflation assumption was lowered from 3.00% to 2.50%. The payroll growth assumption was lowered from 3.50% to 3.00%. The wage inflation assumption (above price inflation) was reduced from 0.75% to 0.35% for the next 10 years, and 0.75% thereafter. The total salary increase assumption was adjusted by the wage inflation change. The amortization date for the funding of the Unfunded Actuarial Accrued Liability (UAAL) was reset to June 30, 2048 (30 years). A mechanism in the law that provided the TRA Board with some authority to set contribution rates was eliminated.

2017 - The Cost of Living Adjustment was assumed to increase from 2.0% annually to 2.5% annually on July 1, 2045. Adjustments were made to the combined service annuity loads. The active load was reduced from 1.4% to 0.0%, the vested inactive load increased from 4.0% to 7.0% and the non-vested inactive load increased from 4.0% to 9.0%

2016 - The assumed investment return was changed from 8.0 percent to 4.66 percent using the Single Equivalent Interest Rate calculation. The single discount rate was changed from 8.0 percent to 4.66 percent. The assumed future salary increases, payroll growth and inflation were changed by a 0.25 percent decrease for price inflation, a 0.50 percent increase for wage inflation and a 2.50 percent decrease in maximum salary increases based on years of service. Mortality assumptions were updated using the RP-2014 tables.

2015 - The assumed post-retirement benefit increase rate was changed from 2.0 percent per year through 2034 and 2.5 percent per year thereafter to 2.0 percent per year for all future years. The assumed investment return was changed from 8.25 percent to 8.0 percent. The single discount rate was changed from 8.25 percent to 8.0 percent.

Changes in Plan Provisions

2018 - The 2018 Omnibus Pension Bill contained a number of changes:

- The COLA was reduced from 2.0% each January 1 to 1.0%, effective January 1, 2019. Beginning January 1, 2024, the COLA will increase 0.1% each year until reaching the ultimate rate of 1.5% in January 1, 2028.
- Beginning July 1, 2024, eligibility for the first COLA changes to normal retirement age (age 65 to 66, depending on date of birth). However, members who retire under Rule of 90 and members who are at least age 62 with 30 years of service credit are exempt.
- The COLA trigger provision, which would have increased the COLA to 2.5% if the funded ratio was at least 90% for two consecutive years, was eliminated.
- Augmentation in the early retirement reduction factors is phased out over a five-year period beginning July 1, 2019 and ending June 30, 2024 (this reduces early retirement benefits). Members who retire and are at least age 62 with 30 years of service are exempt.
- Augmentation on deferred benefits will be reduced to zero percent beginning July 1, 2019. Interest payable on refunds to members was reduced from 4.0% to 3.0%, effective July 1, 2018. Interest due on payments and purchases from members, employers is reduced from 8.5% to 7.5%, effective July 1, 2018.
- The employer contribution rate is increased each July 1 over the next 6 years, (7.71% in 2018, 7.92% in 2019, 8.13% in 2020, 8.34% in 2021, 8.55% in 2022, 8.75% in 2023). In addition, the employee contribution rate will increase from 7.50% to 7.75% on July 1, 2023. The state provides funding for the higher employer contribution rate through an adjustment in the school aid formula.

2015 - On June 30, 2015, the Duluth Teachers Retirement Fund Association was merged into TRA. This also resulted in a state-provided contribution stream of \$14.377 million until the System becomes fully funded.

Changes in Actuarial Assumptions

2018 - The mortality projection scale was changed from MP-2015 to MP-2017. The assumed benefit increase was changed from 1.00 percent per year through 2044 and 2.50 percent per year thereafter to 1.25 percent per year.

2017 - The Combined Service Annuity (CSA) loads were changed from 0.8 percent for active members and 60 percent for vested and non-vested deferred members. The revised CSA loads are now 0.0 percent for active member liability, 15.0 percent for vested deferred member liability and 3.0 percent for non-vested deferred member liability. The assumed post-retirement benefit increase rate was changed from 1.0 percent per year for all years to 1.0 percent per year through 2044 and 2.5 percent per year thereafter.

2016 - The assumed post-retirement benefit increase rate was changed from 1.0 percent per year through 2035 and 2.5 percent per year thereafter to 1.0 percent per year for all future years. The assumed investment return was changed from 7.9 percent to 7.5 percent. The single discount rate was changed from 7.9 percent to 7.5 percent. Other assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed future salary increases, payroll growth and inflation were decreased by 0.25 percent to 3.25 percent for payroll growth and 2.50 percent for inflation.

2015 - The assumed post-retirement benefit increase rate was changed from 1.0 percent per year through 2030 and 2.5 percent per year thereafter to 1.0 percent per year through 2035 and 2.5 percent per year thereafter.

Changes in Plan Provisions

2017 - The State's special funding contribution increased from \$6 million to \$16 million.

2015 - On January 1, 2015, the Minneapolis Employees Retirement Fund was merged into the General Employees Fund, which increased the total pension liability by \$1.1 billion and increased the fiduciary plan net position by \$892 million. Upon consolidation, state and employer contributions were revised.

Nasha Shkola Charter School No. 4208
Brooklyn Park, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of Nasha Shkola Charter School No. 4208 (the Charter School) as of and for the year ended June 30, 2019, and the related notes to the financial statements, and have issued our report thereon dated September 9, 2019.

The *Minnesota Legal Compliance Audit Guide for Charter Schools*, promulgated by the State Auditor pursuant to Minnesota Statute §6.65, contains two categories of compliance to be tested in audits of charter schools: uniform financial accounting and reporting standards, and charter schools.

In connection with our audit, nothing came to our attention that caused us to believe that the Charter School failed to comply with the provisions of the *Minnesota Legal Compliance Audit Guide for Charter Schools*. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the Charter School's noncompliance with the above referenced provisions.

The purpose of this report is solely to describe the scope of our testing of compliance and the results of that testing, and not to provide an opinion on compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS*

Members of the Board of Education
Nasha Shkola Charter School No. 4208
Brooklyn Park, Minnesota

Report on the Financial Statements

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of Nasha Shkola Charter School No. 4208 (the Charter School), Brooklyn Park, Minnesota as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Charter School's basic financial statements and have issued our report thereon dated September 9, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Charter School's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Charter School's internal control. Accordingly, we do not express an opinion on the effectiveness of the Charter School's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

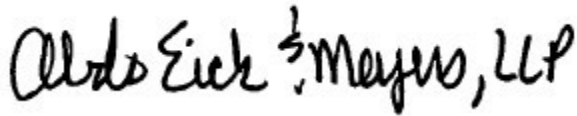

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Charter School's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Charter School's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Charter School's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
